PROJECTS

Smart Resume Analyzer

- Designed and deployed a tool to analyze resumes, score their quality, and suggest personalized improvements.
- Developed a secure admin dashboard to manage user data, visualize job stats, automate email alerts, and export data for analysis.
- Enhanced data visualization and user experience while ensuring authentication-based data security.

Client Management System

- Created a system for clients to select services and generate downloadable invoices in PDF format.
- Built an admin dashboard to track service requests, monitor bill details, and manage client data efficiently.
- Streamlined client interactions and automated invoice generation for improved accuracy and time savings.

Amazon Prime Viewership Dashboard

- Created a dashboard showcasing viewer data, popular movies, TV shows, titles, and directors.
- Analyzed watch trends to highlight content performance and user preferences.

WORK EXPERIENCE

Unified Mentors - Data Analyst Intern

October 2024 - February 2025

- Completed 5 data analysis projects, applying practical skills in data management and visualization.
- Focused on delivering actionable insights to enhance project outcomes.

Varcons Technologies – UI/UX Design Intern

October 2023 - November 2023

- Trained in UI/UX design concepts and applied them to create user-friendly designs under the guidance of senior developers.
- Worked on projects emphasizing hands-on learning and practical application.

Under 25 - Operations Leader

January 2023 - March 2023

- Analyzed attendee and brand data using Excel to enhance event outcomes.
- Led event planning and collaborated with brands to design engaging posters and brochures, improving engagement metrics.
